

## State Supplement A to Attachment 3.1-A

### Item 20a, b, and c Pregnancy Related Services

For a pregnant woman who was eligible and enrolled for mandatory or optional coverage under the state plan on the date her pregnancy ends, New Mexico Medicaid provides full Medicaid coverage through the last day of the month in which the 12-month postpartum period ends.

New Mexico Medicaid will pay for prenatal maternal screening and fetal genetic screening to determine if the fetus has a potential to be born with a genetic condition or birth defect and to establish different options for the pregnancy or special management of the pregnancy and delivery to improve the outcome for the baby.

Services or supplies not related to the pregnancy but which are necessary as a result of a condition which may complicate the pregnancy prior to delivery would be covered, as follows.

All services are subject to the same limitations as specified for the service elsewhere in the state plan:

- Hospital services
- Physician services
- Laboratory and Radiology services
- Clinic services
- Rural Health Clinics services
- Federally Qualified Health Clinic services
- Drug services
- Durable medical equipment and medical supplies
- Family planning services
- Transportation services
- Midwife services
- Prenatal case management
- Certified Nurse Practitioner services
- Vision services
- Psychological services
- Ambulatory Surgical Center services

Increases in covered services for pregnant women:

- Nutritional assessment.
