Good Morning:

Home Modification Solutions (HMS) is writing to express its support for amending NMAC Rule 8.308.12-Subsection G regarding the Cost Limits for Environmental Modifications.

HMS is a NM-owned and operated company that has provided Environmental Modifications to NM Medicaid and Waiver Recipients since 2014. These modifications have a profound impact on recipients, enabling them to remain safely in their own homes with enhanced access to their living spaces and bathrooms. The proposed increase from the previous \$5,000.00 limit to the approved \$6,000.00 would facilitate the implementation of additional modifications at the home. Frequently, this \$1,000.00 increase would enable the installation of additional door widening within the home, ADA toilets, and other necessary modifications.

HMS firmly supports the updating of the NMAC rule to align with the approved CMS 1115 Waiver for Environmental Modifications.

Thank you for your consideration.
