RE: FFY 2025 SNAP Performance Report- Ninth Edition

Attached please find the Ninth Edition of the Supplemental Nutrition Assistance Program (SNAP) Performance Report for FFY 2025. This report includes all Quality Control (QC) findings received for the review months of October 2024 – June 2025.

The FFY 2025 Performance Goals are:

- Cumulative Payment Error Rate of 6% or better (Payment Accuracy 94%)
- Cumulative Negative Error Rate of 1% (Case and Procedural Error Rate (CAPER) of 99%)
- Expedite and Non-Expedite application processing timeliness of 95%

If there are any questions or comments, please contact Marcos Rivera of the Quality Assessment Bureau, e-mail at HCA.QIS@hca.nm.gov.

SNAP Performance Report

SNAP Performance Report: Ninth Edition

This Supplemental Nutrition Assistance Program (SNAP) Performance Report for Federal Fiscal Year (FFY) 2025 includes all Quality Control (QC) findings received for the review months of **October 2024 – June 2025**. A new edition is published monthly; this is the Ninth Edition for FFY 2025.

State Performance Goals

The State reports on three areas and is evaluated by the United States Department of Agriculture (USDA) Food and Nutrition Service (FNS) on these areas:

- **Payment Accuracy**
- **Case and Procedural Error Rate (CAPER)**
- **SNAP Timeliness for Expedite and Non-Expedite**

For FFY 2025, the State Performance Goals are as follows:

<u>Payment Accuracy</u>	<u>CAPER</u>	<u>SNAP Timeliness</u>
		
A cumulative error rate of 6% or better, for a payment accuracy of 94% or better.	A cumulative negative error rate of 1% or better, for a CAPER accuracy of 99% or better.	A timeliness rate of 95% or better for SNAP Expedite and Non-Expedite.

The Payment Error Rate is calculated from the QC Positive Sample cases for the review month, which are the cases actively receiving SNAP benefits. QC reviews the last action taken on the case to certify the eligibility, which could be an Application, Interim Report, or Recertification.

The CAPER Error Rate is calculated from the QC Negative Sample cases for the review month, which are SNAP cases that were denied or terminated during the review month. QC reviews the last action taken to deny/terminate eligibility. The CAPER rate reviews the caseworker action and notices sent to the household. If a notice is not clear and concise and/or does not match the case record, the case is found in error even if the action to deny the case was correct.

Payment Accuracy

State Cumulative Payment Error Rate

The cumulative rates are the ongoing totals and averages taken from the total QC reviews for the fiscal year. These totals contain reviews from the months of **October 2024- June 2025**

Ineligible Benefits

\$2,909 (1.10%) in benefits were incorrectly issued to recipients who were not eligible to receive SNAP benefits.

Total Error Amount

\$42,960 in benefits were incorrectly issued to recipients and is a combination of overpaid, underpaid, and ineligible benefits. This is based on the total cases reviewed by QC and the \$263,936 total benefits issued within those cases.

16.28%

Payment
Error Rate

Underpaid Benefits

\$2,910 (1.10%) in benefits were not appropriately issued to recipients who were eligible to receive a higher amount in SNAP benefits.

Overpaid Benefits

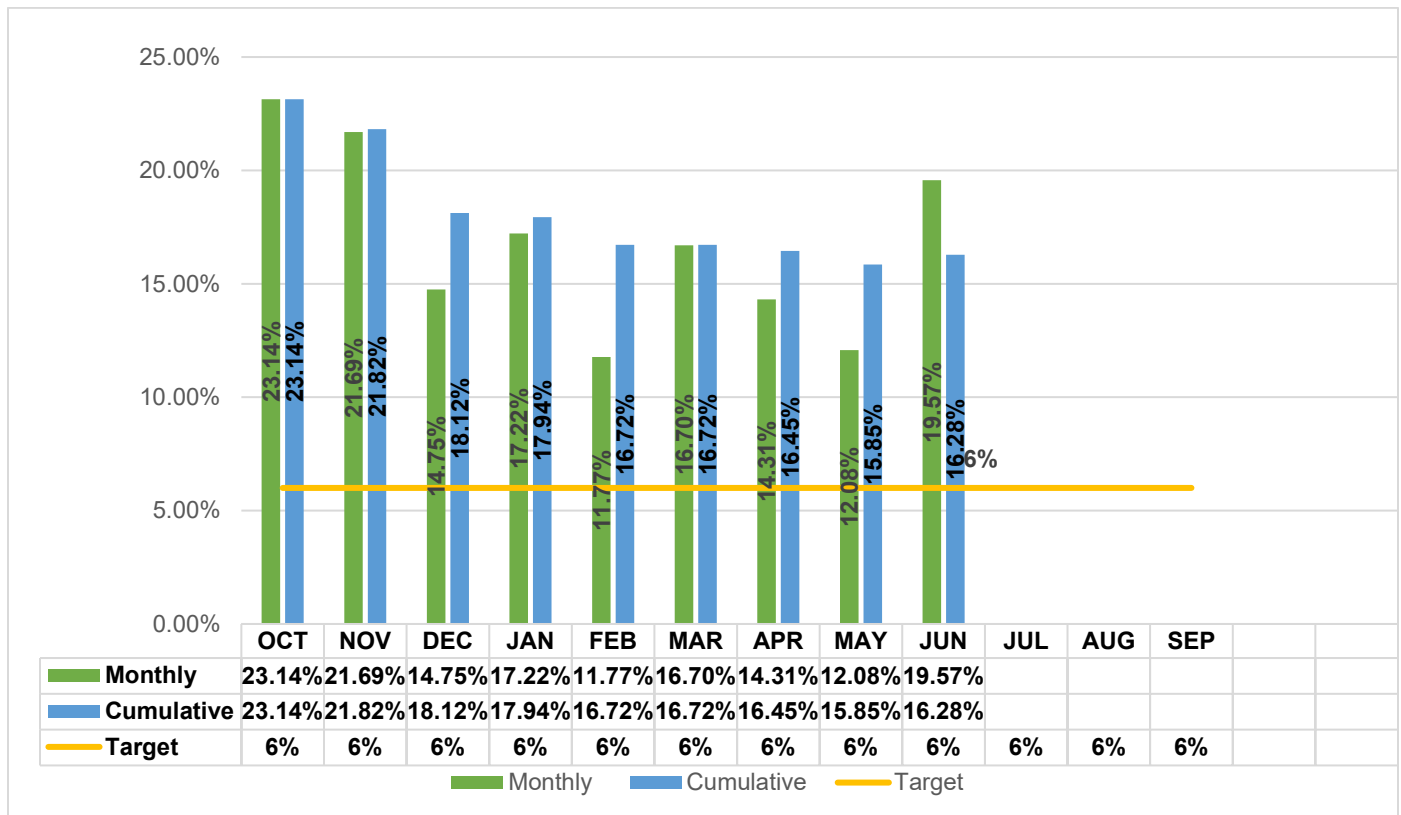

\$37,141 (14.07%) in benefits were incorrectly issued to recipients who were eligible for a lesser amount in SNAP benefits.

Cumulative Totals – October 2024-June 2025

Total Benefits Paid in QC Sample	\$263,936
Total Error Amount in QC Sample	\$42,960
Total Cases Reviewed by QC	768
Total Cases with Errors	169
Total Correct Cases	599
Total Cases with Overpaid Benefits	140
Total Cases with Underpaid Benefits	20
Total Cases with Ineligible Benefits	9
Cases Dropped (In Sample, not Reviewed by QC)	78

FFY 2025 State Payment Error Rates

Monthly vs. Cumulative Error Rates

Monthly totals are for the individual review month, cumulative totals are the totals of all months added together.

Cumulative Error Breakdown-Are they Agency or Recipient Errors?

28%
Agency Error Rate

These are worker errors in application processing and benefit issuance. Eligible recipients could receive overpayments or underpayments, or ineligible recipients could receive wrongful payments.

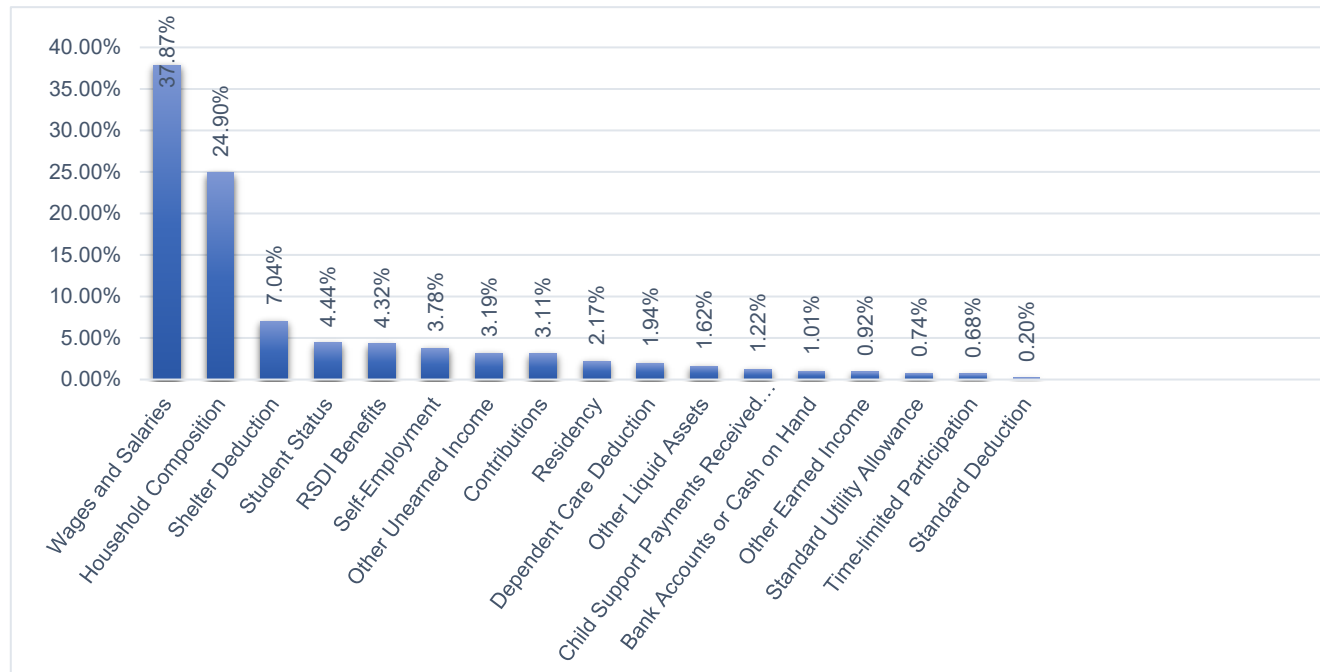

72%
Recipient Error Rate

These are recipient-caused errors in which recipients failed to provide accurate and timely information. Recipients are required to timely report changes to earnings, expenses, and assets.

FFY 2025 SNAP Error Trends – Cumulative Totals

Cumulative Totals –October 2024- April 2025		
Error Element	Error Amount	Error Percentage
Wages and Salaries	\$16,270	37.87%
Household Composition	\$10,696	24.90%
Shelter Deduction	\$3,026	7.04%
Student Status	\$1,909	4.44%
RSDI Benefits	\$1,858	4.32%
Self-Employment	\$1,626	3.78%
Other Unearned Income	\$1,372	3.19%
Contributions	\$1,334	3.11%
Residency	\$933	2.17%
Dependent Care Deduction	\$832	1.94%
Other Liquid Assets	\$697	1.62%
Citizenship and Non-Citizen Status	\$523	1.22%
Child Support Payments Received from Absent Parent	\$434	1.01%
Bank Accounts or Cash on Hand	\$394	0.92%
Other Earned Income	\$360	0.84%
Standard Utility Allowance	\$320	0.74%
Time-limited Participation	\$292	0.68%
Standard Deduction	\$84	0.20%
Totals	\$42,960	100.00%

SNAP Payment Error Rates Mitigation Strategies

Identified reasons for cases found in error during the month of June

- **Wages and Salaries**
 - Information withheld by client (Client Caused)
 - Information not reported (Client Caused)
 - Reported Information disregarded or not applied (Agency Caused)
 - Failed to follow up on Inconsistent or incomplete information (Agency Caused)
- **Household Composition**
 - Information withheld by client (Client Caused)
 - Incorrect information provided by client (Client Caused)
 - Information not reported (Client Caused)
- **Shelter Deduction**
 - Incorrect information provided by client (Client Caused)
 - Incomplete or incorrect or incorrect information provided (Client Caused)

Description of activity developed to resolve deficiencies:

Quality Control reviews are referred to the offices where the error was made for review by the worker and their direct supervisor. County Director written responses are required within ten days of the issuance of the QC finding.

Committees and work groups are developed as needed in review of common error trends and system development or error. These teams consist of County Directors and Line Managers from ISD Regions and the Field Support Bureau, representatives from the ASPEN Help Desk, Policy & Program Development Bureau, Quality Assessment Bureau, and the Training Support Bureau. Staff identify the reason for the error and steps to prevent recurring errors and submit inquiries for policy and procedure clarifications.

Accuracy Improvement Month trainings (AIMs) are released weekly to address the top QC error trends. These are released via email announcements to all ISD staff and have a weekly assessment to track competency. The following week, an email will go out to all ISD staff that explains the answers to the assessment to further ensure competency.

Review processes and findings procedures are reviewed and updated consistently to incorporate FNS findings and observations from QC Reviews, Timeliness Technical Assistance Reviews, State Systems Reviews, Payment Accuracy Reviews etc. as well as any new or adjusted legislation, policy, standards or consent decrees as needed or available.

FFY 2025 Case and Procedural Error Rate (CAPER)

State Cumulative Negative Error Rate

Invalid Closure Breakdown

Out of the 105 invalid denials/closures identified, 72 were identified as an incorrect closure, and 33 were identified as incorrect denials.

Negative Error Amount

105 cases out of 605 were found to have been denied or closed incorrectly. These cases were found to have errors with denial/closure reasons, timeliness, and/or notices.

17.36%
CAPER
Error Rate

Incorrect Notices

26% of the incorrect negative actions reported were due to unclear or incorrect notices issued.

Incorrect Denials

74% of the incorrect negative actions reported were due to incorrect denial/closure reasons and/or untimely denials/closures.

FFY 2025 Regression Rates

Regression rates are calculated by FNS and depend on such variables as FNS reviews of QC-reviewed cases and the State's caseload size. The following charts give the State-reported error rates and the regression rates for Payment Accuracy and CAPER.

*****Please note that regression rates were not issued for FFY 2016 and FFY 2020. A CAPER regression rate for FFY 2019 and FFY 2020 was not issued. FFY 2021, FFY 2022, FFY 2023 and current data for FFY 2025 have not been issued at the time of this report.**

Payment Error Rate

Current Fiscal Year and Previous Fiscal Years

CAPER Error Rate

Current Fiscal Year and Previous Fiscal Years
