SNAP Performance Report: Seventh Edition

This Supplemental Nutrition Assistance Program (SNAP) Performance Report for Federal Fiscal Year (FFY) 2025 includes all Quality Control (QC) findings received for the review months of **October 2024 – April 2025.** A new edition is published monthly; this is the Seventh Edition for FFY 2025.

State Performance Goals

The State reports on three areas and is evaluated by the United States Department of Agriculture (USDA) Food and Nutrition Service (FNS) on these areas:

- Payment Accuracy
- Case and Procedural Error Rate (CAPER)
- SNAP Timeliness for Expedite and Non-Expedite

For FFY 2025, the State Performance Goals are as follows:

Payment Accuracy

A cumulative error rate of 6% or better, for a payment accuracy of 94% or better.

CAPER

A cumulative negative error rate of 1% or better, for a CAPER accuracy of 99% or better.

SNAP Timeliness

A timeliness rate of 95% or better for SNAP Expedite and Non-Expedite.

The Payment Error Rate is calculated from the QC Positive Sample cases for the review month, which are the cases actively receiving SNAP benefits. QC reviews the last action taken on the case to certify the eligibility, which could be an Application, Interim Report, or Recertification.

The CAPER Error Rate is calculated from the QC Negative Sample cases for the review month, which are SNAP cases that were denied or terminated during the review month. QC reviews the last action taken to deny/terminate eligibility. The CAPER rate reviews the caseworker action and notices sent to the household. If a notice is not clear and concise and/or does not match the case record, the case is found in error even if the action to deny the case was correct.

Payment Accuracy

State Cumulative Payment Error Rate

The cumulative rates are the ongoing totals and averages taken from the total QC reviews for the fiscal year. These totals contain reviews from the months of **October 2024- April 2025**

\$2,212 (1.10%) in benefits were incorrectly issued to recipients who were not eligible to receive SNAP benefits.

Total Error Amount

\$33,077 in benefits were incorrectly issued to recipients and is a combination of overpaid, underpaid, and ineligible benefits. This is based on the total cases reviewed by QC and the \$201,040 total benefits issued within those cases.

Description of activity developed to resolve deficiencies:

Quality Control reviews are referred to the offices where the error was made for review by the worker and their direct supervisor. County Director written responses are required within ten days of the issuance of the QC finding.

Committees and work groups are developed as needed in review of common error trends and system development or error. These teams consist of County Directors and Line Managers from ISD Regions and the Field Support Bureau, representatives from the ASPEN Help Desk, Policy & Program Development Bureau, Quality Assessment Bureau, and the Training Support Bureau. Staff identify the reason for the error and steps to prevent recurring errors and submit inquiries for policy and procedure clarifications.

Presentations are developed targeting areas identified and are discussed at bi-monthly staff meetings with local Workload teams.

Review processes and findings procedures are reviewed and updated consistently to incorporate FNS findings and observations from QC Reviews, Timeliness Technical Assistance Reviews, State Systems Reviews, Payment Accuracy Reviews etc. as well as any new or adjusted legislation, policy, standards or consent decrees as needed or available.
